## Manual Screw Cap Sealer

Twin-lever device to apply the tamper-evident ring seal at the base of pre-threaded metal screw caps.

Robust and simple to use, easily adjustable for different cap heights and available for a range of cap diameters: 25 to 31mm or 31 to 35mm

Caps must be applied by hand, or using a tightening device, before using the sealer.

Speed 500-800 bottles per hour.

## Example prices:

Manual Cap sealer 25 to 31mm £235

Manual Cap sealer 31 to 35mm £235

*Prices exclude delivery, commissioning and VAT*
