EXPERTS IN LIQUIDS PROCESSING FILTRATION AND BOTTLING

LA-10 'MEGA' semi-automatic labelling machine

12/12/17

Compact, robust, bench-top machines capable of applying self-adhesive labels from a roll onto a variety of types and sizes of container.

For round bottles, to apply wraparound labels, front and back labels from the same or separate rolls, with options for date/lot-code printing, clear plastic labels, tall labels, orientation of labels front relative to back, or to reference mark, or to pre-applied label.

Speed approximately 500 bottles per hour, depending on label length and operator skill.

Standard machines: three phase 380V Single phase on request. Compressed air supply needed for date printer.

date / lot no. printer

Lift roller / trigger

tall rollers / supports

Example Prices

MEGA X - Standard version	basic price	£2,865
Options:		
Single phase supply		£120
Take-up spool for scrap backing paper		£135
Tall rollers / supports for labels up to 210mm height		£260
Adaptation for small diameter bottles (25 to 60mm)		£160
Date/lot marker (hot foil printer)		£1,985
Reference photocell for application of extra label		£285
Sensor to orientate on bottle notch / embossing		£450
Sensor (ultrasonic) for transparent labels		£475
Kit for square bottles		£575
