LA-35 'LZapp' manual labelling machine

20/09/17

Compact bench-top machines capable of applying self-adhesive labels from a roll onto a variety of types and sizes of container, including round, flat, square, oval and tapered.

The operator places the container in position, according to the adjustable guides, and rotates or moves it, simultaneously turning the knurled wheel, to achieve a precise label application.

Speed 300 to over 1000 bottles per hour, depending on container/ label sizes and operator skill.

Example Prices

LZapp 5 - Standard version

For labels up to 125mm wide, rolls max 200mm diameter

LZapp 8 - Wide body version

For labels up to 200mm wide, rolls max 260mm diameter

LZapp S – Small bottles version

For labels up to 125mm wide, rolls max 200mm diameter

Extra platform (for fast format change)

Prices exclude delivery, commissioning and VAT
