Stainless Cooling Panels

Cheap and easy method for cooling (or heating) liquid in a tank with open-top or manway.

Panels are easier to clean and therefore more hygienic than cooling coils. Standard is 304 stainless steel.

Allows use of existing tanks, without the need for expensive cooling jackets or external heat exchanger systems.

A wide range of lengths and widths is available.

Standard widths: 37, 47, 57cm .

Standard lengths: 60,80,100.... Up to 700 cm.

Add 30cm length for connecting pipes (1/2-inch BSPm connection)

Special sizes/ designs or 316 stainless on request

Designs may vary

Example prices:

Cooling plate 37 x 100 £155 each

Cooling plate 47 x 160 £235 each

Cooling plate 57 x 250 £371 each
