

LIQUID SOLUTIONS

EXPERTS IN LIQUIDS PROCESSING FILTRATION AND BOTTLING

Standard single-skin tanks

Type 'FO' : Flat floor, single outlet, Open top.

Type 'CLO' : Cone base, on Legs, Open top

Type 'CLE' : Cone base, on Legs, Enclosed with top manway

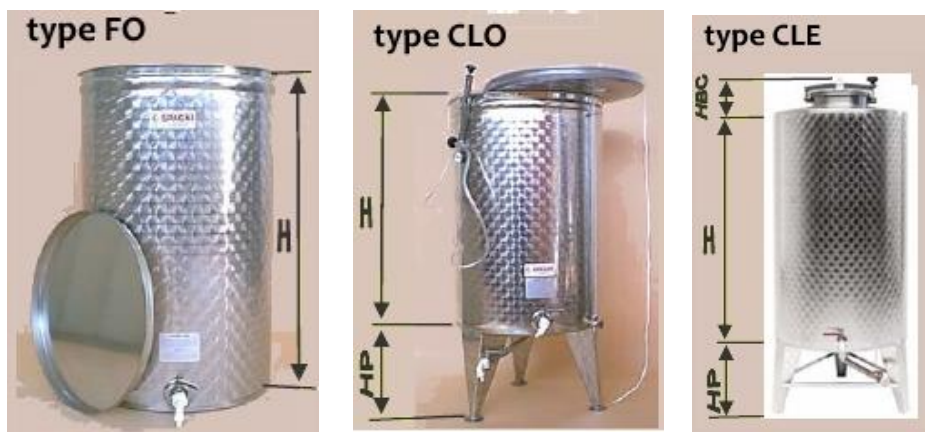

H = cylinder height
(see table)

HP(leg height) = 40cm.

HBC = 20cm.

Dust lids, with handle, overlap rim of tanks, loose fit. Variable capacity lids fit inside tank, and either float on liquid surface or above it, supported and sealed by an inflatable tube around the rim.

CLE type are totally enclosed, with access via a manway in the top, which may be clamped shut.

PRICING AND DELIVERY

It is expensive to ship tanks, as they represent mostly empty space! Our transparent pricing policy reflects this, and though the shipping element will often appear very high, it is an inescapable factor in the total prices, which we believe are competitive. Shipping costs below are for ONE tank delivered (from Italy) to the UK. Others on request We will try hard to minimise the shipping costs, e.g. 10 to 30% saving for shipping multiple tanks; small diameter tanks or other equipment can sometimes be shipped inside larger ones.

LITRES	HEIGHT	DIAMETE	Type	SHIPPING	Type	SHIPPING	Type	SHIPPING	Dust	VC
	cm.	R								
200	84	54	£126	£100	£215	£125	n/a		£35	£65
